## OBJECTIVE

---

To utilize my full stack and app development skills to create impactful and user-centric digital solutions.

## EDUCATION

---

<b>Dwarkadas .J .Sanghvi College of Engineering(DJSCE)</b> Bachelor of Technology in Information Technology – CGPA: 8.944	Mumbai, Maharashtra 2021-2025
<b>Sardar Vallabhai Patel College of Engineering and Science</b> Higher Secondary School Certificate (HSC 94.5%)	Mumbai, Maharashtra 2021
<b>St. Francis High School</b> Secondary School Certificate (SSC 89.8%)	Thane, Maharashtra 2019

## SKILLS

---

- **Languages:** C, JavaScript, Python, CSS, HTML .
- **Frameworks and libraries:** ReactJs , Tailwind, React Native ,NodeJs .
- **Databases :** MySQL , Firebase , MongoDB
- **Tools :** Git/Github , VsCode ,
- **Data Structures:** Array, Linked Lists ,Stack ,Queue ,Binary Tree.

## TECHNICAL PROJECTS

---

- **Web Projects**
  - **Netflix Clone** (ReactJs, Firebase, API)
    - Developed a React-based Netflix clone replicating the UI/UX of the original platform. Utilized Firebase for user authentication, Firestore for database management, and TMDB API for fetching movie data.
  - **Bank Website** (ReactJs, Tailwind CSS)
    - Developed a sleek React JS app with Tailwind CSS, boasting a modern UI/UX design. Incorporated captivating hero sections, high-quality graphics, and strategic call-to-action buttons for enhanced user engagement and conversion optimization.
- **App Project**
  - **HarvestConnect (SIH finale project)** (React Native, Nodejs, Twilio, MongoDB)

Access nearby Water Harvesting Structures (WHS) projects and statewide overviews effortlessly with HarvestConnect.

    - Stay informed about agricultural markets through real-time mandi data integration. Empower users with personalized dashboards to track growth and contributions across multiple projects, promoting connectivity and knowledge-sharing within the Water Development Committee (WDC) community.
  - **Job Listing Mobile App** (React Native, Rapid Api, Firebase)
    - Created a state-of-the-art React Native app tailored for seamless job hunting. Integrated JSearch from Rapid API for efficient job listing browsing, enhancing the user experience.
